

NOTICE REGARDING WELLNESS PROGRAM

The health assessment and the biometric screening, available through the Kroll Ontrack, LLC medical plans, are part of a voluntary wellness program (the "Wellness Program") available to employees enrolled in one of the Company's medical plan with a health savings account (HSA). The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the Wellness Program, you will be asked to complete a voluntary health risk assessment or "HRA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease). You will also be asked to complete a biometric screening, which will include a blood test for glucose, HDL, LDL and total cholesterol. You are not required to complete the HRA or to participate in the blood test or other medical examinations.

However, employees who choose to participate in the Wellness Program will receive an employer contribution to your HSA for the completion of a health assessment and/or biometric screening. Although you are not required to complete the HRA or participate in the biometric screening, only employees who do so will receive the HSA employer funding.

If you are unable to participate in any of the health-related activities or achieve any of the health outcomes required to earn an incentive, you may be entitled to a reasonable accommodation. You may request a reasonable accommodation by contacting the Benefits Department at Kroll Ontrack, LLC, 8201 Greensboro Dr. #717, McLean, VA 22102.

The information from your HRA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the Wellness Program, such as personalized online health programs. You also are encouraged to share your results or concerns with your own doctor.
